Dear Valued Patient,

As of January 1, 2018 all payments of co-pays, deductibles, and/or coinsurance are due at the time of service. As a service to you, our office will bill your insurance company. Being a participating provider with most insurance companies they require that we collect these fees as they are terms of both of our health care contracts with the insurance companies. We are here to assist you with any needs you may have with this.

For your convenience, we accept credit cards including Visa, MasterCard, Care Credit, Discover, and Debit Cards, Checks and Cash and can we set up payment plans if needed.

Due to the constant changes in health insurance it is your responsibility to know your health coverage. If you should have any questions regarding if a certain procedure is covered, it is to your advantage to call your insurance company and find out exactly what your contract covers. Their customer service representatives will be happy to assist you.

Due to the amount of patients waiting to be seen at RCCSMA in the event that you do not cancel your appointment if need be within 24 hours or you do not show for your scheduled appointment you will be charged a \$25 fee for returning visits, \$50 fee for new patients. If you do not show for your appointment or you do not cancel within 24 hours then there are patients who have been waiting to be seen that we could have put in your place.

Thank You,

Respiratory Critical Care & Sleep Medicine Assoc. Staff

FORMULARY BENEFITS DATA CONSENT

Formulary Benefits data are maintained for health insurance providers by organizations known as Pharmacy Benefits Managers (PBM). PBM's are third party administration of prescription drug programs whose primary responsibilities are processing and paying prescription drug claims. They also develop and maintain formularies, which are lists of dispensable drugs covered by a particular drug benefit plan.

By signing below, I give permission for RCCSMA to access my pharmacy benefits data electronically through RxHub. This consent will enable RCCSMA to

- Determine the pharmacy benefits and drug co-pays for a patient's health plan.
- Check whether a prescribed medication is covered (in formulary) under a patient's plan
- Display therapeutic alternatives with preference rank (if available) within a drug class for non-formulary medications.
- Determine if a patient's health plan allows electronic prescribing to Mail Order pharmacies, and if so, e-prescribe to these pharmacies.
- Download a historic list of all medications prescribed for a patient by any provider.

In summary, we ask your permission to obtain formulary information, and information about other prescriptions prescribed by other providers using RxHub.

Treatment: Information obtained by a nurse, physician, or other member of your health care team will be recorded in your medical record and used to determine the course of treatment that should work best for you. To promote quality care, RCCSMA operates an EMR. This is an electronic system that keeps health information about you. RCCSMA may also provide a subsequent healthcare provider with health information about you (e.g., copies of various reports) that should assist him or her in treating you in the future. RCCSMA may also disclose health information about you to, and obtain your health information from, electronic health information networks in which community healthcare providers may participate to facilitate the provision of care to patients such as yourself.

RCCSMA may use a prescription hub which provides electronic access to your medication history. This will assist RCCSMA health care providers in understanding what other medications may have been prescribed for you by other providers.

Payment: A bill may be sent to you or a third-party payer. The information on or accompanying the bill may include information that identifies you, diagnosis, procedures, and supplies used.

Health Care Operations: We may use information in your health record to assess the care and outcomes in your case and others like it. This information will then be used in an effort to continually improve the quality and effectiveness of the health care and service we provide.

Business Associates: We may contract with third parties to provide services on our behalf and disclose your health information to our business associate so that they can perform the job we've asked them to do. We require the business associate to appropriately safeguard your information.

Notification: We may use or disclose information to notify or assist in notifying a family member, personal representative, or another person responsible for your care, your location, and general condition.

Communication with Family/Personal Friends: Health professionals, using their best judgment, may disclose to a family member, other relative, close personal friend or any other person you identify, health information relevant to that person's involvement in your care or payment related to your care. When a family member(s) or a friend(s) accompany you into the exam room, it is considered implied consent that a disclosure of your PHI is acceptable.

Open treatment areas: Sometimes patient care is provided in an open treatment area. While special care is taken to maintain patient privacy, others may overhear some patient information while receiving treatment. Should you be uncomfortable with this, please bring this to the attention of our Privacy Officer.

To Avert a Serious Threat to Health or Safety: We may use your health information or share it with others when necessary to prevent a serious threat to your health or safety, or the health or safety of another person or the public.

Research: We may disclose information to researchers when their research has been approved by an institutional review board that has reviewed the research proposal and established protocols to ensure the privacy of your PHI. Even without that special approval, we may permit researchers to look at PHI to help them prepare for research, for example, to allow them to identify patients who may be included in their research project, as long as they do not remove, or take a copy of, any PHI. We may use and disclose a limited data set that does not contain specific readily identifiable information about you for research. But we will only disclose the limited data set if we enter into a data use agreement with the recipient who must agree to (1) use the data set only for the purposes for which it was provided, (2) ensure the security of the data, and (3) not identify the information or use it to contact any individual. RCCSMA Clinic may use a single compound authorization to combine conditioned and unconditioned authorizations for research (e.g. participation in research studies, creation or maintenance of a research database or repository), provided the authorization: (i) clearly differentiates between the conditioned (provision of research related treatment is conditioned on the provision of a written authorization) and unconditioned research components; and (ii) provides the individual with an opportunity to opt in to the unconditioned research activities.
